such unpartamentary proceedings were never before seen, even when Tom Reed was the boss of Congress.

The judges resumed their work of picking prize-winners at 10.30 o'clock this morning. The first to be looked over were the bullaogs, several timid judges insisted upon getting up on the roof and looking them over with a Lick telescope. This was not done out of any respect for the buil dogs, but as a matter of strict adherence to the first law of nature. Most of these buil dogs are labelled "Dangerous!" They are warranted to kill at 100 yards or any fraction thereof.

This afternoon there will be a grand promenade by the dogs who have aircady been adjudged winners. There will be at least seventy-five dogs in the parade for the wealth of inshion and beauty to look upon and love. Pollowing this will be the regular performance of Prof. Hampton's trained dogs.

The fashiousible world attended in great numbers this morning, ladies being in the majority. Two thousand entered before noon.

May Day. day in virture of an order issued by a magistrate were continued to-day.

One of the houses visited was occupied by a der police surveillance for some time in consequence of his oft-repeated threats against the authorities. The police had, however, done nothing to leave Chalbret to believe that he was an object of their particular regard, and consequently he took no precautions to avoid them.

When to-day, without warning, the police made a raid on his dwelling they were rewarded far beyond their most sanguine expectations.

Concealed in different parts of the apartments there were found forty-one large dynamite cartridges, five boxes containing other high explosives and a number of fuses. Chalbret was at once taken into custody.

The ramifications of the Anarchist conspiracy are found to have spread to a much wider extent than the police believed, and it is thought that had it not been for the authorities learning of the existence of the plot. deplorable results would have attended the machinations of the conspirators.

The French Crisis-Ill-Health of Freycines and Rouvier.

PET ASSOCIATED PRESS, PARIS. Feb. 24.-M. de Freycinet has pleaded that the present state of his health will not permit him to attempt the task of forming the new Cabinet. M. Rouvier was ill to-day and coufined to

his room. He communicated with President Carnot by means of a private telephone.

The selection of M. Rouvier by President Carnot to form a Ministry has afforded great satisfaction to the members of the party of the Right, because when he held the office of Premier in 1887 he advocated an entente with that party, and opposed the

Radicals' support of Boulanger. Before accepting the task intrusted to him by the President, M. Rouvier stipulated that should be permitted to dissolve the Chambers and have a fresh election if he deemed such a course necessary.

It is understood that M. Burdeau will be Minister of Public Instruction and the Fine Arts; M. Raynal, Minister of Marine; M. Felix Faure, Minister of Public Works; M. Loubet, Minister of Justice.

Vile cod-liver oil has lost its vileness in Scott's Emulsion and gained a good deal in efficiency.

It is broken up into tiny drops which are covered with glycerine, just as quinine in pills is coated with sugar or gelatine. You do not get the taste at all.

The hypophosphites of lime and soda add their tonic effect to that of the half-digested cod-liver oil.
